

## **Duracut XNT**

Duracut XNT is a pale, low odour, chlorine free neat cutting oil containing extreme pressure additives, anti-wear additives, lubricity additives and carefully selected mineral oils.

### **FEATURES & BENEFITS**

- ✓ High quality mineral oil
- ✓ Anti mist
- ✓ Low aromatic content
- ✓ High flash point
- ✓ Low Viscosity
- ✓ Prolonged tool life
- ✓ High level lubricity, EP and anti wear performance
- ✓ Excellent surface finish

### **DESIGNED TO GIVE OUTSTANDING PERFORMANCE**

A low viscosity high performance, chlorine free neat cutting oil. Designed using a state of the art additive package blended together with highly refined base stock. This grade out performs all conventional neat oils.

### **MULTI PURPOSE AS STANDARD**

Multi-metal high performance neat cutting oil, with low viscosity characteristics, for use on high tensile steels, stainless steel, alloys. Applications may include use on sliding head CNC machines with through tool coolant and all types of grinding applications.

### **TYPICAL PHYSICAL PROPERTIES**

Appearance	Yellow/Clear
Odour	None
Solubility in water	Insoluble
Flash Point	190 degrees
Viscosity @ 40 degrees	12.5cst
Sulphur	Inactive
Chlorine	No
Anti-friction	Yes
